EXPERIENCE (PROJECTS)

[Manabiko](#) – Book Reader   May 2025 – June 2025

- Developed **Manabiko**, a full-stack book progress tracker with advanced PDF support, metadata extraction, progress tracking, and multi-theme reader.
- Built a **scalable backend with PostgreSQL, Prisma, and Docker**, deployed on **Vercel** with Neon PostgreSQL integration.
- Implemented **metadata & table of contents extraction, progress tracking, and optimized PDF compatibility**.

[Kabegami](#) - Wallpaper App   June 2023 – August 2023

- Built **Kabegami**, an Android app using React Native and the Wallhaven API for browsing, managing, and setting wallpapers.
- Implemented features like **search, favorites, collections, category management, and wallpaper customization**.
- Added support for **custom API endpoints**, giving users flexibility to fetch wallpapers based on their preferences.
